

Easier access to mental health care with our provider search

Smarter care. Stronger support.

We're committed to providing access to affordable mental health care, especially when there may be a need for support in our communities. That's why our simpler provider search process helps employees make informed choices.

Using smarter technology and a member-friendly design, we're making it easier to connect people to the right care. And it's available through the Aetna HealthSM app and the Aetna[®] member website.

Different ways to search for care

Simple search terms

Search using everyday language like "I feel anxious," or "Find care for depression" — there's no need for medical terms.

Guided search experience

Get the right results using step-by-step prompts. They can help refine searches based on symptoms, preferences and care types.

Matching to in-network providers

Use enhanced technology to compare options and find the best fit.

Mental health and well-being virtual providers page

Filter by age, specialty and location. Plus, get access to care in as little as three days.

It's a simpler, faster path to care — built to meet employees where they are.

Want to learn more? Call your Aetna rep.

They'll explain how this tool supports your employees' mental wellness — and even show you a quick demo.

Aetna[®] is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna).
